SUMMARY

Computer Science undergraduate with a strong foundation in the MERN stack (MongoDB, Express.js, React.js, Node.js) and core Data Structures & Algorithms. Experienced in building responsive full-stack web applications, implementing RESTful APIs, and managing databases. Comfortable with writing clean, maintainable code and solving logical problems using DSA fundamentals. Eager to apply practical development skills and problem-solving ability in a real-world software engineering role.

EDUCATION

BCA (Artificial Intelligence & Machine Learning) Galgotias University	2023 – 2026
---	-------------

Intermediate (Class XII), CBSE Kautilya Government Sarvodaya (Co-ed) Vidyalaya Percentage: 76.4%	2023
---	------

Matriculation (Class X), CBSE Kautilya Government Sarvodaya (Co-ed) Vidyalaya Percentage: 76.4%	2021
--	------

TECHNICAL SKILLS

Programming & CS: Data Structures & Algorithms (C++), JavaScript

Web Technologies: MERN Stack (MongoDB, Express.js, React.js, Node.js), Tailwind CSS

Tools & Platforms: Git, GitHub, VS Code, Canva, IntelliJ IDEA

PROJECTS

Password Manager — MERN Stack Project

- Developed a full-stack password management web application using React.js, Tailwind CSS, Node.js, Express.js, and MongoDB.
- Implemented features for adding, updating, deleting, and securely storing credentials with a clean and intuitive UI.
- Built RESTful APIs and integrated MongoDB for secure and persistent data storage.
- Used React hooks and component-based architecture for efficient state management.
- Designed a fully responsive interface using Tailwind CSS to enhance user experience.

GetMeAChai — Full Stack Next.js Project

- Built a Patreon-style full-stack web application using Next.js, handling both frontend and backend development.
- Developed responsive UI pages using React and Next.js.
- Implemented backend logic using Next.js API routes, including authentication and database operations.
- Gained hands-on experience with real-world full-stack project workflows.

PROFESSIONAL EXPERIENCE

Freelance Full Stack Web Developer

- Delivered end-to-end web solutions for small businesses and individual clients as a freelance developer.
- Designed and developed responsive web applications using React.js, Tailwind CSS, Node.js, Express.js, and MongoDB.
- Built and integrated RESTful APIs for authentication, CRUD operations, and data management.
- Collaborated directly with clients to gather requirements, propose technical solutions, and deliver features on time.
- Implemented JWT-based authentication, form validation, and role-based access control in multiple projects.
- Optimized application performance while maintaining clean, scalable, and maintainable codebases.
- Used Git and GitHub for version control and followed standard development workflows.
- Gained hands-on experience in real-world problem solving, debugging, deployment basics, and client communication.

EXTRA-CURRICULAR ACTIVITIES

- Played competitive (professional-level) cricket for over 3 years.
- Developed teamwork, leadership, discipline, and strategic thinking through competitive sports.
- Balanced academics with sports, demonstrating strong time-management and consistency.
- National Service Scheme (NSS) Volunteer – Participated in social initiatives and community outreach programs.
